Report of Water quality Analysis-training

Dr. Durga P. Kamat (Department of Chemistry) and Ms. Vinita Mayenkar (Department of Geology) organized a training session on water quality analysis for students and teachers of Dhempe College of Arts and Science, on 7th February 2020, as an initiative of Green Audit Committee.

Ms. Vinita Mayenkar delivered a talk on water sampling, and the precautions to be taken while doing water sampling for water quality analysis. The demonstration of how to collect the water sample for analysis was also given.

Dr. Durga P. Kamat, gave a talk on the different chemical parameters necessary for water quality analysis. The specification of Indian standards for drinking water were also discussed. The fresh water samples collected were then analyzed for parameters like pH, electrical conductivity, hardness, acidity and alkalinity.

Fourteen students and three teachers participated in this training.
