

**DCT's**  
**Dhempe College of Arts and Science**  
**Miramar, Goa**

#### **7.1.4 Water conservation facilities in the Institution.**

##### **1. Rain water Harvesting :**

College garden has drip irrigation system which is used for watering medicinal plant section of college garden.

This system is also connected to water flow from rooftop/ terrace and is partially filled by rainwater.

##### **2. Borewell/ Open well recharge:**

The College has wells for minimizing the use of PWD water as an initiative to save water.
